        <hr width="15%" noshad> <!--this is a just a lonely comment, dont mind it
LMAO-->

        <p style="text-align: justify; text-indent: 0.5in;">
```

        Hello world! My name is Izzuddin Ahmad Afif. I am a freshman  
 majoring in Internet Engineering Technology at Electronics Engineering Polytechnic Institute of  
 Surabaya. I am very passionate about <big><b>Cyber Security</b></big>. For the time being, I  
 am learning about HTML and this is my first project using HTML. There is one thing I like  
 about this Web Programming Language. Apparently, HTML tags are non case-sensitive. So you  
 can use uppercase letter or lowercase at you own will. This suits myself who doesn't really care  
 about writing rules LOL.<br>

<p align="right">I think that's it for now, see you around!<p align="left"><b><big><a href=form.html>Press me!!!</a></big></b></p>

</p>

</p>
